

Upcoming Summer Programmes

Designing for Children with Special Needs (12-16 July 2021) (online)

Design Thinking Summer Program

Theme: Designing for Students with Disabilities

Design Thinking is an iterative process to systematically extract information, construct insights and develop solutions for ill-defined problems. It is one of the strategies that has enable organizations to innovate. In this summer program, participants will learn and apply Design Thinking through projects for students with disabilities.

Time : 1 week (12 – 16 July 2021)

Mode : online design, interviews and users' test

Contact : Desmond Chua (engckbd@nus.edu.sg)

Fee : SGD 600

Participants will get a certificate participation.

Registration deadline: 7 June 2021 (fee is higher after this date)

This summer program is in collaboration with Universitas Katolik Parahyangan.

This programme explores the use of Design Thinking to create products and services for children with special needs and their caregivers, in collaboration with Universitas Katholik Parahyangan in Indonesia. The programme will be conducted entirely online. Apart from learning how to use Design Thinking to address the theme of this programme, participants will also learn how to use online collaborative tools to work effectively together with team members from other parts of the world.

Programme schedule:
